## WHEAT NEAR DOLLAR MARK

OTHER MARKETS STRONG AND HIGHER, PORK CLOSING \$11.15.

Leiter Thought to Have Control of May Wheat-Few Sellers, Many Buyers-Foreign and Domestic News Bullish.

Chicago, Feb. 15.—May wheat to-day advanced to within a small fraction of the dollar mark, and closed strong with a gain of 15cc over yesterday's fig-ires. The advance was due more to the anxiety of ures. The advance was due more to the anxiety of shorts to get out than to the news. The impression increased that wheat is pretty well tied up by the Leiter interests. Everything else on the floor was active and strong. Corn closed high higher and oata still the higher. Provisions advanced sharply, but reacted on realizing, pork closing 30c higher and lard and ribs unchanged.

For a few minutes following the opening in wheat it looked as it the dollar mark for May was at last to be reached. There was hardly any wheat offered for sale on the curb, and this condition also prevailed when the regular market opened. Reports that Leiter had contracted with the Lehigh road for the moving of 2,000,000 bushels of his wheat to the scaboard came from New York. They were not substantiated, but the report rapidly spread that May wheat is almost completely tied up by Leiter influences, and when the market opened there was a rush of anxious shorts to get under cover. May, which closed yesterday at 38% 693% c. Deen at this substantial advance the market was almost bare of offerings, and the price was bid up steadily to 59% c. A peculiar feature of the advance was the number of stop-loss orders in short wheat. Wheat began to come cut after "call" price (29% c) had been passed, but offerings were eagerly arcepted, and the market did not hesitate much until 39% c had been passed, but offerings were eagerly arcepted, and the market did not hesitate much until 39% c had been reached. This price brought out a lot of wheat from commission houses, and May dropped back to 39% c. There it lung for a time. The news of the day did not especially favor either side, though more buillish than hearish. Northwest receipts were 305 cars, against 422 last week ago and 246 a year ago. Chi-gop receipts were 78 cars, of which 6 were of contract grade. Liverpool was up %6% of for futures, but cash prices showed nearly all of yesterday's advance lost. Argentine cables repeated yesterday's reports of poor threshing returns and lower exportable estima shorts to get out than to the news. The impression were rather small at 175,000 bushels. A little before midday the price shot up again under a renewed demand from shorts, and this time May got to 98% before the reaction came. Letter had sold no wheat during the day. On the contrary he was credited with buying a little. This added to the belief that he is in control of the May market and started buying again. At midday the price had reacted to 99% on the rest of the season the market fluctuated between that figure and 59% c. At the close 14 was bringing 95% ff99% c.

For the first two hours business in corn was exceedingly lively and a sharp advance was recorded. Heavy buying by one of the elevator concerns started the market strong and general buying following the advance in wheat and provisions prices moved up rapidly. The advance brought out free offerings which were fairly well absorbed and for the rest of the session the market ruled steady. May ranged from 31c to 30% c and closed 1/2 higher, at 30% 0.00 is.

from 21c to 30%c and closed by higher, at 30% © 20%c.
Oats were strong and fairly active. Strength in other markets, good export demand and absence of offerings rather alarmed shorts and urgent bidding advanced prices steadily for a time. Many longs also increased their offerings. Later there was some reaction on realizing, but the market closed steady, May ranged from Tipe to 26%c and closed 160le higher, at 27%37%c.

There was a broad general trade in provisions. The opening was rather unsettled, but higher. Heavy commission house buying and sympathy with the wheat strength resulted in prices advancing sharply, especially for pork. This was followed by free realizing a good deal of selling being credited to packers, the market closing tather easy. May pork. 20c higher, at \$1.15; May lard, unchanged, at \$5.20, and May ribe, unchanged, at \$5.20, and May ribe, unchanged at \$5.20, and May ribe, unchanged at \$5.20, and May ribe, unchanged at \$5.20. Wheat, 49 cars;

Grain Notes.

C. M. Bunton of St. Louis, and D. F. Piazzek, Valley Falls, Kas., were on 'change yesterday. A direct Rosario cable says: Estimates of the ex-portable surplus are being reduced and wet weather is delaying threshing.

Chicago reported a big cash business in coarse grains yesterday—390,000 bushels of corn and 400,000 bushels of oats sold for shipment. The exports of oats from the United States in the week ending February 4, 1898, were 1,473,447 bushels; of barley, 339,977 bushels, and of rye, 496,463 bushels. Liverpool wheat receipts in the past three days were \$8,000 bushels, against 104,000 bushels the pre-vious three days, and of the total 72,000 bushels was American.

"This is the year," says P. D. Armour, "for something to happen to corn; something that will double up the price. It will not be at all remarkable if corn gets in the 60s before next January." Export sales at the seaboard Monday were reported as follows: 88,000 bushels of wheat at New York and 112,000 bushels at all outports, 72,000 bushels of corn and 225,000 bushels of corn at 255,000 bushels of corn at outports.

Broomhall says: According to the official French crop report just issued, the total acreage of winter wheat is estimated at 17,690,000 acres, compared with 17,101,000 acres last year and 17,212,000 acres the year before. Bradstreet's available supply statement shown a decrease of wheat last week east of the Rockies of \$24,000 bushels, but an increase in Europe and affoat of 300,000 bushels. In decrease of 524,000 bushels. Corn decreased 57,000 bushels and oats 1,049,000 bushels.

Corn decreased 57,000 bushels and oats 1,049,000 bushels.

The primary receipts yesterday were: Wheat, 357,-600 bushels, against 268,000 bushels same day last year; corn, 830,000 bushels, against 884,000 bushels the same day last year. Shipments 159,000 bushels of wheat, against 106,000 bushels same day last year; corn, 576,000 bushels, against 458,000 bushels aame day last year.

A message to F. P. Smith from Chicago yesterday said: "Wheat to-day, more than at any time in a month, has disclosed that it is 'held up.' The May here has kept over the May at New York. Shorts have covered, but they have had to cover from a new set of shorts. Leiter has done no selling—has even come some buying. The market has kept over 'calls.' The buying has been to stop the losses of shorts."

Among the more important decreases of wheat re-

A message to F. P. Smith from Chicago yesterday and the same of th

seventors, 211,000 busness at Lincago private elevators, 55,000 bushels at Manitoba and Northwestern Ontario storage points, 51,000 bushels at Joliet and 42,000 bushels at Louisville. The large gains include increases of 117,000 bushels at Portland, Me., and 93,000 bushels at thew Orleans.

Yesterday's clearances for export at the four Atlantic ports were 15,772 bushels of wheat, 24,000 packages of flour, 102,412 bushels of corn, 255,000 bushels of oats and 8,571 bushels of reve. In addition, Gaireston cleared 20,000 bushels of wheat, 77 barrels of flour and 262,941 bushels of corn. Newport News cleared 50,000 bushels of corn. Newport News cleared 51,000 barrels of flour and 36,000 bushels of corn. Total wheat and flour clearances amount to 462,000 bushels, and corn 451,333 bushels.

Beerbohm of February 4 says: The subject of the real extent of the Argentine surplus is still, perhaps, a matter of doubt. The latest estimate, from what we esteem a reliable source, being for an export of 28,000,000 bushels to Europe. But whatever the surplus really proves to be, it is pretty clear that it will practically all be shipped in the first half of the year, and very numerous charters of steamers for February and March loading indicate that shippents may assume some considerable importance earlier than expected. In this connection, however, it is well to bear in mind that the gold premium continues to decline, a sure indication of a good crop and that it is now 155, against 195 last year and 215 two years ago.

Scotch Girls' Attire.

Since the college doors were opened to women in Scotland the students have shown a pardonable patriotism in many curious ways. The formal college cap has met new rivals in the Flora Macdonnald bonnet, the Glengarry, the Tam O'Shanter, the Cock-of-the-walk, the Bobble Burns and the highland chieftain. In wearing apparel there has been a revival of Scotch friezes, Caledonian shawls and historical plaids and tartans. Some of the college clubs and societies have adopted as a uniform style, made famous by the great women of Scotch history.

The most general of all fashions, however, is the use of tartans for street and college costumes. The effect is described as most happy, bringing to mind the picturesque days of the highlanders of romance.

## MONEY, STOCKS AND BONDS.

BETTER MOVEMENT AND STRONGER PRICES FOR MOST STOCKS.

Good Buying, Both at Home and Abroad-There Was Some Profit Taking, but This Did Not Affect the Upward Trend.

There was very little new demand for money yesterday. Good paper of all kinds was scarce. What little offering was soon placed. Rates, however, atlil held at '68 per cent. Deposits large and collections good. But little currency going to the country. Bank clearings, \$1.357,390, against \$1,855,491, a decrease of \$469,191, a loss of 25 per cent. Eastern exchange dull and weak.

Houston, Fible & Co., exchange brokers, quote it as follows: New York, 60c discount; Chicago, 50c discount, St. Louis, 25c discount.

The gold reserve yesterday was \$166,162,065.

Stocks and Bonds.

New York, Feb. 15.—To-day's sharp rally in stocks is to be attributed to the covering of short contracts put out in yesterday's flurry. Buying was said to be heavy for Washington account, which was a heavy seller yesterday. Yesterday's losses were more than recovered in most cases, notwithstanding a smaller volume of business to-day. There was at least one period of general reaction during the day, but it was of short duration, and declines reached small proportions. There was also profit-taking in a few special stocks, which did not affect the general list to a noticeable extent. American securities continued to be favorities on the London Stock exchange, where prices of Americans were marked up with a distinctly confident tone before the opening here, and London continued a buyer here even after prices had advanced to the London parity. Much stress was laid on this as indicating a definite change in the attitude of the British investing public toward American securities. They were persistent sellers of American securities. They were persistent sellers of American securities. They were bersistent sellers of American securities are now buying American stocks at prices many points above where they sold. This buying is regarded as the more significant on account of the higher rates of money in London as compared with New York, and the heavy balance of exchange still known to be outstanding in favor of this country. In Paris, Spanish 4s declined on fears of strained relations between the United States and Spain, and American securities declined on some of strained relations between the United States and Spain, and American securities declined on some of strained relations between the United States and Spain, and American securities declined on fears of strained relations to the states and spain, and American securities declined on fears of strained relations to the states and spain, and American securities declined on fears of strained relations to the states and spain, and American securities d

Wool Quiet but Firm.

Boston, Mass., Feb. 15.—The demand for wool here this week has been quiet, but a firm tone obtained. The market for territory wools is firm on the scoured basis of 50c for fine medium and fine. Fleece wools are firm, with alow business. Australian wools hold firm, but show considerable falling off. Dry Goods.

New York, Feb. 15.—The week in dry goods shows fairly active trading with a better showing of buyers in town than during the early days of the previous weeks. The price tone is decidedly better. White Star, 48 by 52, brown cotton; Majestie B. B., brown; Marian and North Star bleached cottons, Grantteville and Maginnis brown sheetings, have all been advanced he per yard. Other advances are expected to-morrow. The tone of staple cottons is particularly strong. The higher price of cottons has been the chief incentive to higher price quotations. In the absence of heavy demand there is little opportunity to test the market on the basis of these new quotations, but so far as can be learned, the advances have been well sustained. In coarse colored cottons there is a corresponding strengthening, but sellera do not feel justified in quoting higher prices. Print cloths unchanged. Prints firm, and in good demand.

Drive-outs
A good, steady and rather firm market was had yesterday. While there were free arrivals. Monday's supply was light and killers all wanted sheep and lambs and bid up very well for them, and the pens were cleared without trouble. Stockers and feeders, as well as muttons, were in good request. Not many on sale and what here sold readily.

HOG CHOLERA TREATED SUCCESS. FULLY IN MINNESOTA.

Fifteen of One Herd of Seventeen and Forty-three of Another Herd of Forty-six Were Saved-0mcial Tests to Be Made.

Dubuque, Ia., Feb. 15.-F. J. Clemans, division freight agent of the Chicago, Mil-woukee & St. Paul railroad, has just returned from Faribault, Minn., where, ac-companied by Dr. M. H. Ray, state veterinary surgeon for Minnesota, he inspected a herd of hogs owned by George Mesign. The hogs were affected with cholera, and when the railway company's expert, Frank Baumgartner, commenced treatment, seventeen were sick. Two of these were killed for post-mortem examination. Under the teen remaining recovered. On the farm of L. Weinberger, near Warsaw, forty-three out of a herd of forty-six hogs were

out of a herd of forty-six hogs were saved.

The Milwaukee company has arranged with O. C. Gregg, of the Minnesota Farmers' Institute, and Dr. Reynolds, of the state board of health, for an official test of hog cholera treatment at once. These demonstrations will be watched with interest by farmers and rallway men throughout the country.

The total cattle roceipts at the four leading Western markets yesterday were 22,600, of which II,100 were here at Kansas City. Nearly three times as many as were in Chicago and 3,600 more than at Omaha and St. Louis combined.

The number of cattle exported during the month of January was 33.54, against 34.643 the same month last year. For the same time manufactured product was sent as follows:
